EcoTac Guar GG-1200TM

EcoTac Guar GG-1200TM is a premium tacifier. It is a natural organic material derived from the guar plant (*Cyanopsis tetragonoloba*). EcoTac Guar GG-1200TM is highly effective in hydroseeding/mulching applications in tacking straw.

EcoTac Guar GG-1200TM is a planned granulation of superior quality guar. The specifically sized particles are screened to specifications proven best for job site field use. The quality of EcoTac Guar GG-1200 TM is consistent lot to lot and is lab tested for uniformity. This natural polysaccharide contains no additives and remains unaltered for proper hydration in its natural state. Such purity means a guar tacifier with maximum life and sticking power.

Application Rates: Hydroseedin

Water Gallons	EcoTac Guar Pounds	Mulch Pounds	Coverage at 2,000 Pounds Mulch/Acre		Amounts of Seed & Fertilizer Are in Addition to the Rates
			Acres	Sq. Ft.	Check job specifications for Exact Amount
800	9.5	320	0.16	6,970	Tacifiers Amount Shown is Based on 60 Pounds/Acre
1500	18	600	0.30	13,000	Gentle Slopes May Use Less: 40-60 Pounds/Acre
2500	30	1000	0.50	21,800	

Straw Mulch Application

Increase tacifier amount to 80 -100 pounds/acre. Include 400 pounds/acre fiber mulch.

Mixing Procedure

Fill tank 1/3 with water. Turn on agitator. Pour tacifier slowly (do not dump) into area of greatest agitation. After tacifier is mixed in water, add seed, mulch and fertilizer.

Packaging

EcoTac Guar GG-1200TM is packaged in 50 lb. bags.

Specifications

Tacifier shall be 100% guar gum with specifically sized particles that are screened to specification for the job site. The natural polysaccharide shall contain no additives and remain unaltered.

Caution

Any material with EcoTac Guar GG-1200TM will become slippery when mixed with water. If any is splashed on the outside surface of equipment it will be slippery. Caution anyone using the product. Clean up during and after use.
