EROSION CONTROL PRODUCTS

PT-Tac

A Better Plantago Tacifier

PT-Tac is a premium *Plantago ovata* tacifier. It is a natural organic, plant derived material, which is highly effective and economical for holding surface applications of hay or straw mulch in place. It is also used as a tacifier in hydroseeding.

PT-Tac aids in tacking wood fiber and straw mulch as well as surface soil. This adhesion helps stabilize revegetation and erosion control materials during germination. PT-Tac breaks down slowly in the microbiological process.

PT-Tac, a member of the Psyllium group, has a reliable performance record as a quality tacifier. Its success has set a standard for the industry. It is an excellent tacifier for use on straw as well as hydraulic planting fiber.

Hydroseeding Application Rates

Water Gallons	PT-Tac Pounds	Mulch Pounds	Coverage at 2,000 Pounds Mulch/Acre		Amounts of Seed & Fertilizer Are In Addition To These Rates
			Acres	Sq. Ft.	
900	18	350	0.18	7,840	Check Job Specifications for Exact Amount
1500	30	600	0.30	13,070	Tacifier Amount Shown is Based on 100 pounds/acre
3000	60	1200	0.60	26,140	Steeper Slopes and Loose or Raveling Soils, Use Heavier Rates

Straw Mulch Application Rates

Water Gallons	PT-Tac Pounds	Mulch (tracer) lbs.	Coverage at 350 Pounds Mulch/Acre		Any Other Additives Are in Addition to These Rates
			Acres	Sq. Ft.	
900	72	200	.60	26,140	Check Job Specifications For Exact Amount
1500	120	350	1.0	43,560	PT-Tac Amount is Based On 120 Pounds/Acre
3000	240	700	2.0	87,120	

Mixing Instructions

Fill tank 1/2 with water. Turn on agitator. Add PT-Tac to the area of greatest agitation. Pour slowly for best mixing. Add other slurry ingredients after the tacifier has been mixed.

Packaging

PT-Tac is a dry powder. It is convenient to handle and stack. Packaged 50 lbs. (22.68 kg) in strong, durable, poly-lined paper bags.

Specification

The tacifier shall be 100% *Plantago Ovata* vegetable hydrocolloid. The natural hydrocolloid shall contain no additives and remain unaltered.
